Experience

IT Idol Technologies | Ahmedabad, Gujarat
Frontend Developer Intern | 02/2024 - 03/2024

- Designing eye-catchy websites using pure HTML5 and CSS3 along with taking responsiveness into consideration to provide cross-platform compatibility.
- Using Modern CSS Frameworks such as Bootstrap to boost the site's performance, simplify the styling, and write clean code.
- Adding logic to make the elements dynamic and functional using Vanilla JavaScript and Document Object Model. Using libraries such as jQuery to make the scripts fast and efficient.
- Creating Single Page Web Applications using React.js as Modern JavaScript Library to reduce page load, create user interfaces faster, and reduce network requests to the server using Server-Side Rendering.

Accomation | Ahmedabad, Gujarat
Frontend Editor Intern | 01/2024 - 02/2024

- Worked on editing the pre-developed frontend layout on a contract basis for a span of 10-15 days
- Understood the structure of Laravel directories and basics of PHP syntax.
- Fixed bugs on the client-side and made the site look more appealing.
- Customized CSS to change the layout from aligning content, to styling buttons, to creating a custom scrollbar, and a lot more.

Innovius Software | Ahmedabad, Gujarat
Frontend Developer Intern | 01/2024 - 01/2024

- Built websites from scratch using technological stacks such as HTML5, CSS3, Bootstrap and JavaScript.
- Implemented Responsive Web Design to make the site compatible & flexible for all screen-sizes.
- Fixed bugs and edited pre-built HTML structure & CSS layout to make the site more user-appealing.
- Learned how to upload files in cPanel to make the changes live and available for everyone.
